PROGRAM CRITERIA

Signing this document indicates acknowledgement of the following criteria:

- 1.) Soybeans delivered as IP Non GMO soybeans must pass testing for purity and grade quality to quality for premium.
- 2.) The delivery will likely be to Canton, MO **subject to buyer's call**. Shipment window subject to change is November 1, 2026 - July 30, 2027.
- 3.) In order to avoid penalty, planting shortfalls must be reported by June 1st 2026 and expected production shortfalls must be reported by September 1st 2026.
- 4.) Program participation is subject to space and availability
- 5.) IP non GMO soybeans **are not** to be treated with any **chemical** post-harvest.
(This includes any bin treatment options without first confirming with UFC.)
- 6.) If it is found you have **knowingly and repeatedly** delivered contaminated soybeans under the guise of IP non GMO soybeans, you will be excluded from this program and subject to exclusion from any other IP program involving Ursa Farmers Cooperative.
Fraudulent activities will result in surrendering of premium.
- 7.) Ursa Farmers reserves the right to change program conditions as deemed necessary
