ECIC

January 30, 2009

Dear Customer,

East Central Iowa Cooperative would like to offer our customers another option for contracting LP gas and diesel fuel.

We will contract LP or fuel for your 2009-2010 spring or fall usage. We have seen much better prices and would like to pass this on to our customers who want to contract early if it fits their needs. For any future contracting, this will be an on-going program for you to consider when buying your fuel needs.

Please call our office at 1-866-404-3242 or 319-235-6281 for information. We will be glad to visit with you about your future contracting needs. Also, you may contact Terry on his cell at 319-240-2900.

We appreciate your business and patronage with ECIC. We are here to serve our members.

Thank you,

Terry Grant

Energy Division Team Leader
