SPORTMiX® Bite Size 21/8 is formulated to provide your normally active dog with 100% complete and balanced nutrition for a healthy life. Made from selected high quality ingredients and fortified with essential vitamins and minerals, SPORTMiX® Bite Size promotes strong muscles and bones and glossy skin and coat.

**GUARANTEED ANALYSIS**

Crude Protein, min	Moisture, max....	12.0%
.....	21.0%	
Crude Fat, min.....	8.0%	
Crude Fiber, max....	5.0%	

**FEEDING DIRECTIONS**

SPORTMiX® Bite Size may be fed dry or moistened according to your dog's preference. If moist food is preferred, mix four parts SPORTMiX® Bite Size with one part water, milk, or broth. Use the chart as a guide. One feeding per day is acceptable, however, two feedings each of one half the daily requirement is recommended. Puppies may be started on SPORTMiX® Bite Size as soon as they are old enough to take solid nourishment. Feed your puppy a mixture of two parts SPORTMiX® Bite Size with one part warm liquid until the puppy is two months old. After two months, feed your puppy all it will eat in a twenty-minute period, four times a day, gradually reducing to a single daily feeding by one year of age. Lactating dogs require two to three times as much food as adult dogs. Remember, these amounts are averages and will vary depending upon the breed, size and age of your dog. Have clean fresh water available at all times.
