Golden Shiners

Per lb \$9.95

KOI \$12.00

Please bring your own containers w/ water from your pond/lake

NO city water — it has chlorine that kills fish

NO well water — well water is low in oxygen and temperature difference causes need for tempering

LIDS FOR CONTAINERS ARE RECOMMENDED

To protect your investment when buying fish, we recommend bringing the following amounts of **POND** water to transport fish for approximately 10-15 minutes. For each 5 minute increase in haul time, double the recommend amounts of water or use a suitable aeration device.

5 Gallons Per:
1-2 grass carp

10 Gallons Per:
100 1-4" fish

20 Gallons Per:
100 4-8" fish
or
4 lbs minnows

50 Gallons Per:
100 8-12" fish
