Per lb ..... \$9.00

### Golden Shiners

Per lb ..... \$9.95

Please bring your own containers w/ water from your pond/lake

**NO** city water — it has chlorine that kills fish

**NO** well water — well water is low in oxygen and temperature difference causes need for tempering

### **LIDS FOR CONTAINERS ARE RECOMMENDED**

To protect your investment when buying fish, we recommend bringing the following amounts of **POND** water to transport fish for approximately 10-15 minutes. For each 5 minute increase in haul time, double the recommend amounts of water or use a suitable aeration device.

5 Gallons Per:  
1-2 grass carp

10 Gallons Per:  
100 1-4" fish

20 Gallons Per:  
100 4-8" fish

50 Gallons Per:  
100 8-12" fish

or

4 lbs minnows
