MDARD's Producer Security Program Presents the 2026 Dry Bean Stock Report

Commercial elevators in Michigan held 1,353,688 hundredweight (cwt.) of dry beans in storage as of August 31, 2026, according to Michigan Department of Agriculture and Rural Development (MDARD). The quantity on hand included:

- 256,380 cwt. of navy beans
- 890,748 cwt. of black beans
- 66,656 cwt. of small red beans
- 139,904 cwt. of all other classes.

Stocks account for all beans in commercial off-farm storage and include a small portion of non-Michigan grown products. An estimate of the quantity of dry beans held on farms is not included in this report.

This is the 23rd issue in a series of Dry Bean Stock Reports sent at the request of the Michigan Bean Commission and the Michigan Bean Shippers Association with August 31 as the reference date for tabulation and publishing henceforth.

Dry bean stocks are not included in the USDA Agricultural Statistics Board system of grain stocks reports. Dry bean stocks included in this report were tabulated from administrative reports supplied monthly by elevator operators to MDARD. If there are any questions, please contact Denise Studders, Producer Security Program Manager, at 517-256-1882 or StuddersD@michigan.gov.
