

## Agronomy Operations and Maintenance Technician

**NPC is now hiring!** NPC is currently looking to fill 3 Agronomy Operations and Maintenance Technician positions located at our Ottawa, IL facility. Responsibilities include but are not limited to sets up of material handling, blending, storage, transport and application equipment for blending and delivery of products. Repairs, rebuilds, and cleans equipment as needed to maintain a professional appearance and extend the life of the equipment. Applies crop production/protection inputs to fields and growing crops according to recommended rates, procedures, and following all pesticide labels. Records all application data according to regulations and standards. Rinses containers and sprayers and disposes of rinse in accordance with state regulation and company standards.

### Desired Requirements:

- High School Diploma or Equivalent
- Valid Driver's License is required.
- Class A CDL with HAZMAT, tanker, and airbrake endorsements a plus; NPC will assist in obtaining
- 1-3 years related experience and/or training preferred.
- Knowledge of farming practices.
- Knowledge of technical skills and abilities necessary to perform required job to establish standards.
- Remains current on industry developments and trends in area of expertise.
- Approachable; puts others at ease, give full attention, shows interest, responds appropriately. Builds relationships both internally and externally through professional and highly developed verbal and written communications.
- Organized; has the capability to work on projects while maintaining ease and a level head of thinking and rational.
- Analyzes problems and sources of conflicts, communicates with direct reports for help with resolution and problem solving.
- Ability to operate equipment (applicator equipment and machinery, shop tools, fork lifts, class A and B trucks)
- Ability to function independently where appropriate but to recognize when issues escalate and need to be referred to other resources.
- Ability to assess a situation and determine the best course of action (sound, good judgment).
